

MaxPure® & MaxCore® Brand ASME BPE Certified Fittings

It's a fact MaxPure® & MaxCore® BPE fittings are the best in the biopharmaceutical business today around the world. We guarantee weldability, dimensional and tolerance requirements are met. We also visually 100% inspect every fitting before leaving the manufacturing floor, assuring the best quality in the business today.

Here are some important facts that make us the best in the world today

- **MaxPure® & MaxCore®** BPE fittings are manufactured to ASME BPE compliant specifications
- **MaxPure® & MaxCore®** BPE fittings have superior dimensions, tolerances, and surface finishes than other brands exceeding ASME BPE requirements
- **MaxPure® & MaxCore®** BPE fittings are all polished mechanically on automated Hilite polishing machines. No hand polishing. This assures precision repeatability on surface finish
- **MaxPure® & MaxCore®** BPE fitting butt weld ends are machined square, allowing welding without the need to face
- **MaxPure® & MaxCore®** BPE fittings are diode laser etched providing clarity of heat number, job number, material type, surface finish, designation, trade name and ASME certification stamp (if applicable)
- **MaxPure® & MaxCore®** BPE fittings chemical composition and mechanical analysis is strictly to ASME BPE requirements. 100% guaranteed
- **MaxPure® & MaxCore®** BPE fittings go through a nine step cleaning and passivation process after manufacturing of the fittings
- **MaxPure®** BPE fittings have color coded caps - red is electropolished, yellow is mechanical polished, for quick identification
- **MaxCore®** BPE fittings have color coded caps white is electropolished, orange is mechanical polished, for quick identification
- **MaxPure® & MaxCore®** BPE fittings are plastic zip-lock bagged with a QR code for smartphone NeoReader app. Showing MTR for immediate check in or QC / QA reviews
- **MaxPure® & MaxCore®** BPE fittings have a picture depicting the fittings for easy identification
- **MaxPure® & MaxCore®** BPE fittings MTR's are available at www.vnestainless.com using the job number. No password needed
- **MaxPure® & MaxCore®** BPE fittings quality and availability unmatched around the world
- **MaxPure® & MaxCore®** BPE fittings has a light OD polish on PC / SF1, PD SF4 and PL SF5 savings cost

Call your local stocking VNE Channel Partner Distributor today for the world's best biopharmaceutical fittings. One call does it all for the best customer service in the business today!
